

Folsom Lake College  
**English & Math Transfer-Level Completion Rates**  
**Fall 2023 Update**

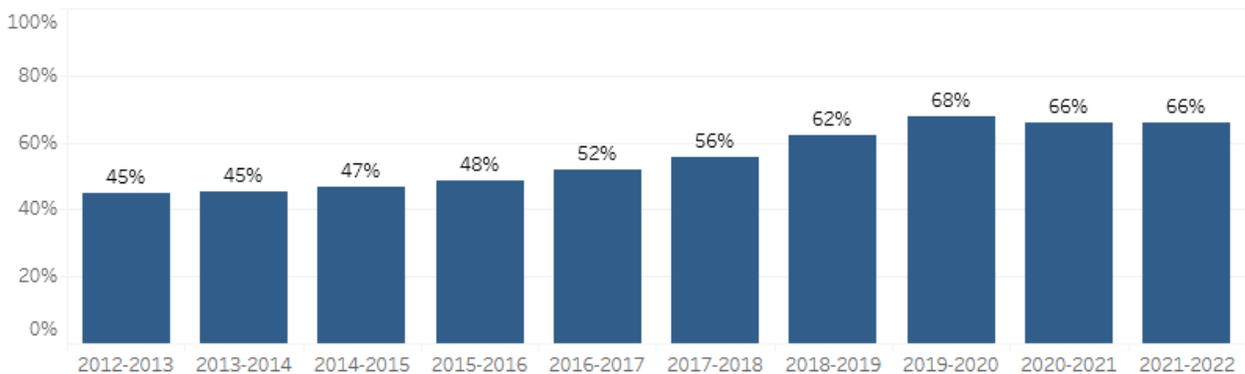

With the passage of Assembly Bill 705, Folsom Lake College has undertaken a major transformation of developmental education. The bill requires that we maximize the probability that students will complete transfer-level coursework in English and math within a one-year time frame. Relatedly, the bill mandates that we use high school records (e.g., coursework, grades, and/or grade point averages) as the primary criteria for placement recommendations.<sup>1</sup>

A new [Transfer-Level Gateway Completion Dashboard](#) is now publicly available<sup>2</sup>. This dashboard allows users to compare completion rates across colleges, regions, and statewide. Looking at the impacts of the AB705 from a statewide perspective, there has been a dramatic increase in the percentage of students who are successfully completing transfer-level courses in English and Math within their first year of college.

Since the implementation of AB705 at Folsom Lake College in the 2018-19 academic year, the percentage of students who completed transfer-level English within their first year of enrollment has increased dramatically. The total of number of students who successfully completed transfer-level English in their first year has increased by 38% from 2012-13 to 2022-22. There are still some equity gaps in completion rates, but those gaps are continuing to narrow for most student groups.
