Anatomy should be a requirement

I felt adequately prepared in all areas.

It was very helpful

more options on advanced courses which will help students who want to move on to further level of education like CLS pre-requisite classes for MLT students as an alternative.

No improvement needed

Overall, I have nothing more to add other than keep having positive instructors.

Staff and teachers have all be very helpful and supportive during my education experience.

Teachers made themselves available for help when needed. Their support was great to have!

Is there anything else you would like share about your experience as an FLC student?
